To You, A Message of Importance!

THIS IS PART TWO OF OUR QUARTER MILLENNIUM SALE. Part One took place on June 29th and was a tremendous success. Yes, many bargains were had because in an EXTRAORDINARY sale of this nature, there are always "sleepers" and bargains. Don't say after this sale, "I wish I would have bid on lot so and so, as it went quite reasonable." SEND IN YOUR BIDS NOW.

For the past two years, we have been contacting some of the owners of tremendous collections we have helped build over the years. We are now in our 31st year as dealers, and through these years have helped form some of the greatest collections ever assembled. Many rarities have passed through our hands, and this sale will welcome back a number of them. We have mentioned to some of these "old timers" that they should have the joy and satisfaction of knowing that while they are still with us, they will see other collectors appreciate the quality that they did. As one of the collectors said to us, "I spent years and years of effort and disregarded the cost in assembling what I thought was an outstanding collection. I hope that the new owners will enjoy some of my prizes, as I have."

We are very happy that we were able to induce some of these true numismatists to part with their collections; and the results are much greater than we had ever anticipated. Because of the tremendous value attached to these collections, we have decided to sell them over a period of two or more sales. You will note that we have left out certain sections in Part I and II of our 250th sale, and they will be included in our Part III. For easy reading and reference to individual lots, even though there are a number of consignors, we have placed them numerically in order. We have combined over a half dozen outstanding collections under one heading, and you will note that we have planned this sale to include some of the greatest rarities, and also commoner varieties so that everyone on our mailing list will have an opportunity to acquire those that interest them. Our sales are cataloged with YOU in mind, and we want everyone to have an opportunity, whether they collect good, proof, finest knowns, or unique.

As in the past, we have adhered to the policy of "not selling names"! We have purposely left out the consignor's names. We believe that a coin should stand on its own merits regardless of what name may be attached to a particular coin. We have refrained from using excessive high quality paper and expensive binding, as naturally this brings the cost of the catalogs up considerably, and someone, somewhere along the line (not the dealer) must bear this cost. Our commission rates are as low as 10%, as we feel that the savings of the printing and mailing costs should be passed on to the consignor. If your collection is for sale, we are prepared to purchase it either for cash or handle it in one of our future auctions.

As in every sale, some items go at bargain prices, therefore may we suggest that you study the catalog carefully and send in as many bids as you wish.

For those bidding in our sale for the first time, may we suggest that you read these first three pages of this catalog, and you will find that YOU, the collector, are the one to be satisfied, and that we do not question the return of any item for any reason whatsoever.

Good luck on your bids, and please be sure that you Airmail your bid sheets before August 26th, so that it will reach us in time.

Sincerely,

A. M. Kagin and Paul Kagin

ALL BIDDERS PLEASE READ

Terms Governing This Sale

Bidders unknown to us will please furnish bank or other references or deposit 25 per cent with their bids, and it is agreed that remittance will be made upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. **You must be satisfied. PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE.** Coins remain our property until paid for. There will be no charge for executing your bids but the purchasers will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. **PLEASE BID BY THE LOT.** Unlimited bids are executed at an advance of 5 per cent over the next highest bid. Numbers in () are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. **LOTS CANNOT BE BROKEN.** Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

NOTICE TO NEW BIDDERS

Our Mail Auction Sales Are Conducted in the Following

1. Bids are entered in the order received; if identical bids are received, the first bidder is awarded the lot. **SEND BIDS AIRMAIL—IT PAYS.**

2. The highest bidder on the date of the sale is awarded the coin at a slight advance over the second highest bidder. **Bids you send in are the maximum you are willing to pay for the coin. WE, AS YOUR AGENT, TRY TO BUY THE COIN AS LOW AS THE NEXT HIGHEST BID WILL ALLOW.**

3. Valuations placed in the auction catalog are catalog prices, prices generally asked by dealers when the coin is in stock, or prices generally realized at auctions.

ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED. No, you won't receive a nasty letter for returning a coin—instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins each month. Whenever this happens, we want it called to our attention to help prevent future errors.

Any coins may be inspected prior to the sale, collector to pay postage and insurance both ways.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

PRICE LIST OF SALE \$1.00

IS THIS YOUR FIRST AUCTION CATALOG?

17th EDITION (1964) GUIDE BOOK USED IN CATALOGING THIS SALE

Gold, silver, small cents, types, commems (gold & silver), and scarce currency, seem to be rising the most rapidly at present with most bringing close to listed values and a great number bringing even more. Many are rising from month to month with a number "just not obtainable." The coins most in demand will have the greatest number of bidders and with the law of supply and demand working, these coins keep setting new records.

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these coins come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. **The estimated prices are entered only after careful examination of the results in our past sales which reflect the actual and not theoretical value. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, ETC. ARE ESTIMATED AT CATALOG.)** In the final analysis, you the collector, are the one who sets the price.

BIDS ARE RECORDED AS FOLLOWS: Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.25. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even tho auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. Coin collecting is a personal hobby which makes life a little more pleasant. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them as well as any compliments.

**YOUR SUCCESSFUL BIDS WILL INSURE YOUR RECEIVING
SUCCESSIVE CATALOGS WITHOUT INTERRUPTION**

BARGAINS GALORE

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN

YOU MUST BE SATISFIED

Our Sales Are Cataloged With You in Mind. If you have any suggestions, complaints, (yes we receive some now and then), we want to hear them. Having cataloged over two hundred forty successful coin auctions, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know-it-all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 per cent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 8c airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the bid sheet. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

1. 1856 FLYING EAGLE, BRILLIANT GEM PROOF! A MAGNIFICENT SPECIMEN OF THE MOST POPULAR SMALL CENT. AN EQUAL SPECIMEN MAY EXIST BUT CERTAINLY NO FINER. May the new owner enjoy the dividends, pleasure-wise and money-wise, that the present owner has during the years. We note the catalog has advanced this rarity \$850 during the past year but the market, as usual, continues to outdistance the catalog on popular rarities. We note "ordinary" proofs were bringing \$2500 to \$3000 since the last A.N.A. convention in Detroit (August 1962). It is difficult to properly estimate what a premium coin like this will bring in the present strong market. Certainly, a bid of \$3500 would be nominal for such a top-grade popular coin. Perhaps some far-seeing investment minded connoisseur will be wise enough to "pay the little extra" generally required to obtain coins of this nature, perhaps \$3750 to\$4,000.00

HALF DIMES

We note the new guidebook is finally recognizing the rarity of many of this series by substantially raising the values. However, a number are still undervalued. We believe this series will show a marked rise in values during the relatively near future.

262. 1792 HALF DISME, bust left (said to be that of Martha Washington) "LIB. PARENT OF SCIENCE & INDUSTRY" around bust. Struck from silverplate furnished from the Washington household. A CHOICE VIRTUALLY UNCIRCULATED SPECIMEN SHOWING ONLY THE BAREST FRICTION! Surely, one of the top specimens of the few still in existence. We note the guidebook has finally advanced its value in very fine from the ridiculous \$475 of last year to its current \$1000. This particularly choice specimen should proportionately be worth around \$2500.00. Actually, we did see a specimen nearly the equal of this at the April Central States convention in Chicago priced at\$3000.00

263. 1794 SECOND TYPE WITH FLOWING HAIR, 15 STARS (states) about very fine with the reverse a trifle sharper than obverse, RARE "SOLID 4" variety. 750.00

264. 1795 Only 9 berries on branch, golden Uncirculated, slight rub on highest points. RARE. 650.00

HALF DIMES (Continued)

265.	1795 Only "5", "ERT", 3 or 4 stars and bust show on obverse; most of eagle and wreath clearly legible on reverse, holed. The lowest valuation shown in the catalog (fair) is	50.00
266.	1796 THIRD TYPE, HAIR IN KNOT, SMALLER EAGLE , fine to very fine, minor nick or two. RARE . Seldom offered. Acquired in 1962 at \$365; could now exceed	400.00
267.	1796 OVER 5, ROTATED REVERSE , extremely fine. VERY RARE	1500.00
268.	1796 LIKERTY , very good except for stars at left. RARE	400.00
269.	1797 Similar type with 15 Stars, very good, unevenly struck resulting in some portions being good, some very good and others being fine. RARE . One no better at the January Florida convention was priced	300.00
270.	1797 FOURTH TYPE WITH 16 STARS (Tennessee became a state) nearly Uncirculated, struck on a "pecky planchet" (caused by impurities in the metal at time of smelting) with the typical reverse struck from worn die (feathers on eagle's belly and legs not defined. VERY RARE, PARTICULARLY IN THIS CHOICE STATE OF PRESERVATION! Seldom offered in any condition, let alone so choice! If rarity is a criterion of value, then this should surely realize at least	1000.00
271.	1797 Presumably, the FIFTH TYPE WITH 13 STARS (it was realized how impractical it would be to add a star for each new state) however only 5 of the stars show as well as the bust and date (fine and bold), 4 or 5 tiny nicks; reverse very good except "America" weak. RARE . Seldom offered.	150.00
272.	1800 SIXTH TYPE WITH LARGE HERALDIC EAGLE , Obverse mainly very good with fine and bold date altho some small portions faint; reverse mostly legible altho somewhat worn. IN STRONG DEMAND FOR TYPE	125.00
273.	1801 Golden Uncirculated, struck from worn die with unfinished detail at point of bust. VERY RARE IN THIS STATE OF PRESERVATION! We cannot recall handling an equal specimen in our thirty years as professionals. If rarity is any criterion as to value, then this is certainly worth over	\$1500.00
274.	1803 Large 8 , mainly very good obverse but left side stars do not show; reverse has only a small portion of eagle showing; bruises around edge. RARE . Acquired a year ago at \$69.50; could now realize	75.00
275.	1803 Small Narrow 8 , very good but might possibly have been bent and straightened. VERY RARE	175.00
276.	1805 Extremely fine with some luster. VERY RARE . The rarest date next to the nearly "impossible" 1802. Undoubtedly, one of the choicest specimens of the few known of this date. Should bring at least	\$1250.00
277.	1824 WASHINGTON-LAFAYETTE , size of 1829 halfdime, struck at mint from dies prepared to counterstamp the coins in circulation to commemorate Lafayette's visit to the United States in 1824. THE FIRST U.S. COMMEMORATIVE COIN! "GENERAL LAFAYETTE 1821" (diagonal and crossbar do not show) around bust, reverse "GEORGE WASHINGTON" around bust. A choice virtually uncirculated specimen. VERY RARE . Only the second specimen we can recall handling in all our thirty years as professional numismatists. The owner says he paid \$525; how much this historical rarity will now bring, must be determined by you, the bidder.	
278.	1829 SEVENTH TYPE, HEAD LEFT IN CAP, MAGNIFICENT PROOF WITH RAISED BORDER AROUND OBVERSE AND REVERSE, LOVELY BLUE AND GOLDEN COLOR. RARE.	350.00

292.	1837 EIGHTH TYPE, LIBERTY SEATED, NO STARS, BRILLIANT PROOF WITH SLIGHT GOLDEN OVERTONES. A MAGNIFICENT SPECIMEN. VARIETY WITH TRIPLE ENGRAVED DATE; FIRST DATE MUCH TOO LOW, SECOND DATE STILL TOO LOW AND FINAL DATE CORRECTLY SPACED. RARE TYPE COIN.	\$1500.00

DIMES, EARLY TYPE 1796-1807

370. **1796 FIRST TYPE, 15 STARS, SMALL EAGLE**, acquired as "extra fine" but we prefer to call it very fine and sharp. In strong demand for type. The catalog lists it somewhat low at \$750 in very fine as we noted a specimen not the equal of this one at the Central States convention in April priced at 1000.00

371.	1797 SECOND TYPE, 16 STARS (Tennessee became a state) extremely fine. MUCH RARER THAN ABOVE DATE! Easily worth over	\$1200.00
372.	1797 THIRD TYPE, 13 STARS (It was realized how impractical it would be to add a star for each new state) very fine altho the reverse actually borders on extremely fine. In checking records, we note this coin is offered fewer times than the 1796!	750.00
373.	1798 OVER 97, FOURTH TYPE, NEW LARGE HERALDIC EAGLE WITH 16 STARS REVERSE (states) extremely fine, tiny hardly noticeable defect at top. VERY RARE TYPE ISSUED ONLY A FEW MONTHS!	500.00
374.	1798 OVER 97, FIFTH TYPE, 13 STARS REVERSE (same reason as lot 372) VERY FINE. ONE OF THE RAREST OF ALL DIMES! THE CATALOG DOES NOT PRICE IT DUE TO ITS GREAT RARITY! WE HAVE SEEN IT COMPARED TO THE 1894-S DIME IN RARITY (24 issued—only 8 or 9 said to now exist). Fortunately, we did find a record where an uncirculated (weakly struck) specimen was offered last year by a leading New York dealer at \$7500.00. This particular specimen should now proportionately be worth between \$4500 and	\$5,000.00
375.	1798 Large 8, normal date, bluish Uncirculated. RARE. In strong demand for type. Comparable (if not actually superior) to the specimen at the Central States Chicago convention in April at	750.00
376.	1798 Small 8, good altho the left stars are weak. VERY RARE. "Possibly 9 or 10 are said to be known." ONE OF THE PRIZES IN THIS ENTIRE COLLECTION! NOT PRICED IN THE CATALOG DUE TO ITS RARITY! In a class with the 1894-S and 1798/97 13 stars reverse as to rarity!	
377.	1800 Date 1.800, very fine obverse, extremely fine reverse. RARE.	350.00
378.	1800 Usual normal date, fine and bold date, good bust, stars and Liberty well worn; very good reverse. In strong demand for type.	85.00
379.	1801 Rare variety with 7 berries reverse (caused by die breaks) very good and sharp obverse, very fine reverse. VERY RARE.	350.00
380.	1802 Fine and sharp bordering on very fine. Rare. Catalogs much too low v.f. at	200.00
381.	1803 Fine and bold date, good bust and right stars, fair left stars and "Libe"; very good reverse. Rare.	90.00
382.	1804 Normal 13 Stars Reverse, about fine. RARE. By far, the smallest issued date 1796-1807! Undervalued in keeping with its rarity. Easily worth	300.00
383.	1804 Error Die with 14 STARS REVERSE, extremely fine. VERY RARE, PARTICULARLY SO CHOICE. Undoubtedly, one of the top-grade specimens of the few in existence. We do not recall seeing an uncirculated specimen in our thirty years as professional numismatists! Cost \$1000 two years ago; surely this rarity now worth closer to	\$1500.00
384.	1805 4 Berries, bluish golden UNCIRCULATED, SHARPLY STRUCK. VERY RARE SO CHOICE. In almost hysterical demand in this condition for "type." Acquired a year ago at \$750; should now bring	850.00
385.	1805 5 Berries, fair with fine and bold date. RARE. Seldom offered in any condition. We note its appearance on a number of want lists! Easily worth	60.00
386.	1807 Good to very good with bold date. Cost \$47.50 in 1962; perhaps it will now exceed	60.00

1876-CC PROOF PRESENTATION PIECE

544A. 1876-CC GLITTERING GOLDEN PROOF WITH A FANTASTICALLY HIGH WIRE EDGE, Re-Engraved "E" in DIME. Undoubtedly struck for some special purpose. This has reposed in a New York collection for over twenty years with an 1876-CC 20c piece. While its original cost over twenty years ago was \$150, the owner about ten years ago valued it at \$1000; with the increase in values since then, surely this valuation is now nominal.

1894-S DIME		

553. Here is indeed an old friend. This great rarity passed thru our hands in 1957 when we sent it to the Mint. THE UNITED STATES MINT AT PHILADELPHIA STATED THE COIN IS GENUINE AND THIS LETTER ACCOMPANIES THE COIN! This coin next appeared on the market in 1958 in a New Netherlands sale described as follows:

"A Popular and Extraordinarily Rare 1894-S Dime! THE ONLY KNOWN SPECIMEN of the Lowest Mintage, Regularly Issued, U. S. Coin TO CIRCULATE EXTENSIVELY, AND TO HAVE BEEN ACTUALLY USED AS SPECIE."

Lot 581 1894 "S". In date, 4 practically touches bust. Mintmark a trifle to right of center of its normal position; minute chip out of die on underside of base of E in DIME (same dies as on Eliasberg's coin). Obverse Good to VG, Y in LIBERTY readable; reverse strictly Very Good. Evenly worn, with no more than the normal amount of light scratches for a coin of this grade; without serious injury of any kind, and without a trace of tampering anywhere. **Authenticity of this specimen established by our microscopic examination, and unconditionally guaranteed.** Also, accompanying this lot there is a Government letter confirming the genuineness of the coin. The only example extant in circulated condition of the most famous of all dimes, if not of the best known modern coin (outside of the notorious 1913 Liberty Head Nickel). Its appearance here proves that the 1894 "S", so far from being a specially minted piece de caprice, actually reached circulation, and it is reliably reported that this specimen was in fact found there. **One of only 24 struck . . . the lowest mintage of any United States date or mintmark coined for circulation,** in any metal, of any denomination. (The five coins of lower mintages; 1861 Paquet double eagle, MCMVII double eagle of excessively high relief, 1870 "S" and 1875 original three dollars gold, and 1838 "O" half dollar, were all special emissions of one kind or other, and cannot be said to have legitimately functioned as coins by reaching circulation. The sixth low coinage item, the aforementioned 1913 Liberty Head Nickel, has absolutely no official status, and like the 1884-85 trade dollars, is not even worthy of consideration) **One of possibly seven examples known to us.** One of the other six, uncirculated (and not the best of them), sold at public auction seven months ago for \$4,750 to a dealer, and later resold at a large advance. The coin here offered, **having a story to tell by its very appearance,** would be relatively cheap, in our opinion, at \$4,000.00"

Since then, the Hydeman specimen was sold at auction 2½ years ago and realized \$13,000.00. We understand a specimen is currently being quoted at "over \$20,000.00." Not a bad investment. What the specimen here catalogued will bring, must in the final analysis be determined by you, the collector.

TWENTY CENT PIECES

The shortest lived denomination issued by the U. S. It is interesting to note that a "Double Dime" was initially authorized by Congress but by the time of actual coinage, the 25c piece was substituted (customary use of the "two-bit" piece of the "Spanish Milled Dollar" won out of the decimal "Double Dime"). Numerous designs were tried before the regular issue of 20c pieces in 1875. Some of these interesting patterns are herewith included.

662.	1874 J-1354, Liberty Seated LEFT on globe, reverse resembles regular issue (some minor differences) of 1875, silver, Brilliant slightly golden PROOF.	300.00
	ONLY 13 TO 15 ISSUED.

QUARTER DOLLARS

673. **1796 FIRST TYPE, 15 STARS (states), SMALL EAGLE;** the date, stars and Liberty are very fine and the bust is fine; most of the reverse is fine except UNI and OF AM rather weak. The reverse frequently comes somewhat less sharp than the obverse. Comparable to specimens we have seen offered at **2500.00**
674. 1796 Fine and bold date but balance of obverse only partly legible; reverse most of eagle legible but balance only partly legible. RARE VARIETY with head of eagle sharply struck (about 10 times rarer than usual flatly struck eagle's head).
- 500.00
675. **1796 UNLISTED VARIETY with Die Breaks Above head of Liberty(very fine and sharply struck with HEAD OF EAGLE QUITE SHARP. A choice specimen of this VERY RARE VARIETY. Should be worth close to****\$4000.00**
676. **1804 SECOND TYPE, 13 STARS, LARGE HERALDIC EAGLE,** extremely fine obverse and nearly Uncirculated reverse with some luster, struck from slightly dished dies accounting for the uneven friction. Acquired a year ago at \$895; in trying to find a recent record we note an uncirculated specimen nearly two years ago at \$3000.00. This specimen, one of the choicest to pass thru our hands in quite some time, should now exceed
- 1000.00
677. 1805 Date, stars and Liberty about very fine and bold, bust very good and sharp; reverse about fine, usual 5 berries. We note the catalog of the Penn-Ohio convention in June contains a "fine to very fine" specimen valued at 165.00
678. 1805 VERY RARE 4 BERRY REVERSE, BRILLIANT SLIGHTLY GOLDEN UNCIRCULATED, SHARPLY STRUCK. A sharply struck specimen of the usual 5 berry reverse is rare indeed but in this very rare 5 berry reverse, IT IS EXTREMELY RARE. The owner recognized this when he acquired this coin at \$1500; we believe its present value to be over\$2500.00

679.	1806 OVER 5, from last year's Penn-Ohio sale described as "Very Fine, with an even granulated surface. This is the popular "Heraldic Eagle" Type 2 quarter. This rare coin lists much too low in this condition at \$170.00. A more realistic price for this coin is \$250.00." With the advance in values during the past year, this coin could now bring its estimated value last year of	250.00
680.	1806 Date very fine and bold, Liberty and bust very good and stars rather faint; very good reverse. In demand for type.	75.00
681.	1807 Very fine. IN STRONG DEMAND FOR TYPE.	250.00

687.	1819 Small 9, DOUBLE "5" in 25C: (note colon in place of period after C) ROTATED REVERSE, fine.	75.00

SILVER DOLLARS

We note a marked rise in values the past year reflecting the continued strong interest in this series. With the release of some of the later dates several months ago, we note a large number of new collectors have been attracted to this series. We doubt this will be reflected in the 18th edition of the guidebook. The completeness of this offering is a most unusual opportunity to acquire some of the outstanding rarities. Who knows how many more years will elapse before an equal offering will appear upon the market.

The "unit" upon which our coinage is based. Authorized in 1792 but not coined until 1794 due to the bond requirement (lower bond requirement for copper $\frac{1}{2}$ c and 1c, hence their issue in 1793). Edge lettered "HUNDRED CENTS, ONE DOLLAR OR UNIT."

1279. 1794 B-1, FLOWING HAIR, 8 * Left, 7 * Right (to denote number of states in Union) eagle with outstretched wings, two leaves beneath each wing. Only one pair of dies used to strike the small issue of 1758 pieces. The dies rapidly failed forcing them to be discarded quite soon. As Bolender states, "Usually found with the impression weak, etc." (see next lot for complete Bolender statement. **This specimen is the VERY RARE EARLY STATE WITH SHARP EVEN STRIKE THRUOUT. A CHOICE EXTREMELY FINE specimen.** We cannot recall seeing more than one or possibly two specimens the equal to this one in sharpness of strike during our thirty years as professionals. If rarity has anything to do with value, then this remarkably sharp specimen should be worth\$15,000.00

1280. 1794 B-1A, We have assigned the "A" listing to the majority of the only 35 to 45 said to exist (some "experts" say 35 or 40 exist, others claim 40 to possibly 50 exist) described by Bolender as "Usually found with the impression weak on lower part of date and the stars on left, and sometimes the border milling on left does not show up. The corresponding portion of reverse, especially the word STATES, will therefore also appear weak. Very rare.". This particular specimen is from the October, 1962 Penn-Ohio convention auction, described as "(lot) 1410. Extremely Rare 1794. This coin is difficult to grade inasmuch as it appears to be well struck on the right side and weakly struck on the left side, as is characteristic of this date. If one were to grade by the head, this coin would warrant a grade of Extremely Fine. Over all, the coin is comparable to some I have seen offered at conventions as Very Fine. This too, has only happened on very few occasions as this is an extremely rare coin and only 40-45 copies are known to exist. In checking over the records, I find that the Atlanta A.N.A. in 1961 had an about fine-obverse and a fine reverse which brought \$2600.00. This is a much better coin. The owner said he paid \$3250.00 for it two years ago. In checking over the prices that I could find over the past two years, Very Fine ones have sold for over \$5000.00." This coin fits Bolender's description fairly well. **We are inclined to call it very fine with the usual weaknesses described by Bolender.** We note the guidebook is now a bit more current in its valuation, having advanced it from last year's \$4000 for v.f. to its current \$5000; with the advances taking place since the compilation of the present guidebook valuations, it is entirely possible that its present value is closer to\$6000.00

1795 SILVER DOLLARS

1281.	1795 B-1, Resembles 1794, 2 leaves, "L" die break under 7 giving the 7 the appearance of an overdate, date spaced 1 795, extremely fine and sharp rather than the "about uncirculated" for which acquired. An evenly struck attractive coin. In strong demand for type.	500.00
1282.	1795 B-4, Different appearing bust, 2 leaves, last star entirely under bust. The stars, date and Liberty as well as lettering and wreath very fine, eagle and bust very good and sharp. SCARCE.	250.00
1283.	1795 B-5, Three Leaves, Uncirculated with prooflike surface, slight rubbing on hair. Catalogs a mere \$850, however the current market for unc. seems around	1000.00
1284.	1795 B-6, Three Leaves, wide date 1 79 5, virtually Uncirculated, barest friction. RARE.	900.00
1285.	1795 B-7, 3 Leaves, THE ONLY 14 BERRY variety, acquired as extremely fine, and fairly close to it. Sometimes called "head of 1794" RARE.	600.00
1286.	1795 B-9, Re-engraved "5", 2 leaves, extremely fine. RARE.	650.00
1287.	1795 B-12A, THE UNIQUE SPECIMEN which we sold several years ago in our "America's Outstanding Collection of Silver Dollars." Described there as "1795 B-12A, Three Leaves, 13 berries, vertical die break thru 7 thru bust, very good and sharp obverse, fine reverse. UNIQUE. This specimen appears to be the Bolender specimen which was formerly in the great Stickney collection. BOLENDER STATES IN HIS BOOK THAT HE DID NOT KNOW OF ANY OTHER SPECIMEN. Truly, "A CHANCE OF A LIFETIME" to acquire a great rarity. A bargain at only \$475.00." Surely this great rarity now worth over	1000.00
1288.	1795 B-13, Wide date 1 79 5, 9x10 berries, fine. AN OUTSTANDING RARITY. Perhaps this is ONE OF THE ONLY THREE SPECIMENS KNOWN TO BOLENDER! Acquired two years ago (quite reasonably) at \$225; should now bring over	400.00
1289.	1795 B-14, BUST TYPE with bust centered too far to left, SMALLER EAGLE, SMALL LETTERS, extremely fine, tiny nick.	400.00

1290. 1795 B-14A?, Similar but slight bifurcation of A's in AMERICA. A MAGNIFICENT SPECIMEN, SHARPLY STRUCK PROOFLIKE COIN , faint mint equalization marks on obverse. Acquired in 1961 at \$975; should now realize closer to\$2000.00
--

1291.	1795 B-15, Bust properly centered, only 6 berries compared to the 7 berries of B-14, virtually Uncirculated, only barest friction. RARE.	650.00
-------	---	--------

1796 SILVER DOLLARS

Small total issue of only 5 die combinations of which 3 are major varieties. Undervalued date.

1292.	1796 B-1, Small date, small letters, 7 berries, extremely fine. RARE.	350.00
1293.	1796 B-2, Small date, small letters, nearly Uncirculated. RARER VARIETY.	500.00
1294.	1796 B-4, Small date, LARGE LETTERS, nearly Uncirculated. RARE.	500.00
1295.	1796 B-5, Large Date, small letters, tiny die break above "I" in AMERICA making it a "Dotted I" variety, virtually Uncirculated, barest friction. RARE.	550.00
1296.	1796 B-5, Die break much larger extending from "I" half way to "C", extremely fine and sharp. The usual die state encountered.	400.00
1297.	1796 B-5A, Die break now extends well along "C", nearly Uncirculated. RARE more so than lots 1295 and 1296.	550.00

1797 SILVER DOLLARS

The THIRD TYPE with 16 STARS (Tennessee became a state) 9 Stars left, 7 right. As pointed out by Bolender, THE COINAGE WAS THE SMALLEST OF ANY YEAR FROM 1795 TO 1803, ONLY 7776 PIECES BEING ISSUED! Compare this to the other years: 184,013 for 1795; 72,920 for 1796; 327,536 for 1798; 423,515 for 1799; 220,920 for 1800; 54,454 for 1801; 41,650 for 1802 and 66,064 for 1803. The FOURTH TYPE dollar has 10 Stars left, 6 right. The three die varieties are THREE MAJOR VARIETIES, each with a separate listing in the catalog. Divide the TOTAL of ONLY 7776 ISSUED FOR 1797 into the demand for TWO TYPES PLUS A MAJOR VARIETY—then you too will realize that the 1797 IS THE MOST UNDERVALUED OF THE DATES 1795-1803.

1298. 1797 B-1, 9X7 STARS, LARGE LETTERS, extremely fine with traces of luster. Only 4941 issued of this MAJOR TYPE COIN. How many can still be in existence today? Surely this date is too low at _____ 500.00

1299. 1797 B-1AA?, Has die break thru ribbon and 7th star but NO die break thru 97 of date and stars at right. Has **UNLISTED** die break from hair thru ribbon thru bottom point of 5th star. Faint starting die breaks from top curls on head, no reverse die breaks. Nearly uncirculated with pleasing bluish golden color. VERY RARE. Surely this rarity worth at least ...\$ 1000.00

1300. 1797 B-1B, Die breaks thru 7th star and 2nd star, breaks from top curls on head to ERTY, slight die bulging at first star on left, die break thru second "T" of STATES, nearly uncirculated. RARE. Bolender lists this variety as somewhat rarer than the normal 1797 B-1. Probably worth around 800.00

1301. 1797 B-1CC?, **UNLISTED** Die State with Die Failure at 7th and 8th stars (only faintly struck) and corresponding reverse (U of UNITED) spray-like die breaks before face, plus other die breaks of B-1B but NOT the die breaks of B-1C as listed by Bolender (9th star down to ribbon, neck thru chin, right field to 12th star). A borderline extremely fine specimen. Bolender values B-1C at somewhat more than B-1, B-1A or B-1B. **Undoubtedly, QUITE RARE.** Surely, this rarity worth\$1000.00

1302. 1797 B-2, 9X7 Stars but **EXTREMELY RARE SMALL LETTERS. ONLY 342 ISSUED COMPARED TO THE 1758 ISSUED FOR 1794! BY FAR, THE RAREST EARLY DOLLAR 1794-1803! About the same number said to exist as the 1804 dollar (15 known).** Some "experts" say about a "dozen" exist which others say "up to 1½ dozen." Since this GREAT RARITY seldom comes upon the market, the guidebook has not changed its value for quite some time, and of course, has no bearing on its actual value. The celebrated Wolfson collection sold in May in New York contained the 1804 which realized \$36,000.00. It also had the 1870-S (only 6 or 7 said to be known) in very fine condition which realized \$12,000.00. **It did not, however, contain this 1797 small letters!** This 1797 small letters is almost as rare as the 1870-S and about equal in rarity to the 1804. Perhaps the smallness of issue of the 1797 small letters was due to the weakness in striking of the belly of the eagle and the forestrands of liberty's hair. This particular specimen has luster around the stars and letters. The date, stars, LIBERTY and outer portion of the bust are quite sharp grading extremely fine to nearly uncirculated. The legend, wreath, and outer portions of eagle also grade extremely fine to nearly uncirculated. The eagle's belly and forestrands of bust's hair (due to striking) appear to be closer to very fine. If rarity is any criterion of value, surely this GREAT RARITY should be worth over\$2500.00

1303. 1797 B-3, 10 Stars Left, 6 Stars Right, THE FOURTH TYPE SILVER DOLLAR. **ONLY 2493 ISSUED, MAKING IT TWICE AS RARE AS THE 1797 9X7 STARS!** Compare this with the 1794 of which 1758 were issued; Surely, a more accurate valuation of this 1797 rarity must take place before very long. This specimen is not too far from uncirculated, showing only a moderate amount of friction, some luster still adhering, edge nick reverse. From a rarity viewpoint, this coin should be worth at least \$1500 but since it's rarity has not been publicized, it will probably bring, for the present, closer to ----- 750.00

1798 SILVER DOLLARS

1304. 1798 B-1, FIFTH TYPE, 13 Stars obverse, reverse type of 1797 with SMALL EAGLE and Large Letters, very fine and sharp. **VERY RARE.** The Wolfson specimen described at "A beautiful Very Fine, choice, example of this rare coin" realized \$320 in May, even tho it was estimated at only \$250. It is indeed rare and is seldom offered. It should now exceed ----- 350.00
1305. 1798 B-2, 15 Stars obverse similar to 1796 (possibly an unfinished die from 1796, hurriedly pressed into use to fill an urgent need, by punching in the date) combined with the discarded small eagle, small letters reverse die of 1797 B-2 (characteristic weak struck eagle). This coin is comparable to the extremely rare 1797 B-2 as this too has the weakness in striking of the forehair and eagle's belly but is quite sharp (extremely fine to nearly uncirculated) on the balance of the coin with traces of luster. Planchet break (as struck) on reverse edge (not visible from obverse. **VERY RARE. One of the choicest specimens we have seen of this rarity!** The catalog has a ridiculous valuation of \$750 for unc.; actually, if an uncirculated specimen really does exist, it should be closer to \$1500. This particular specimen probably worth around ----- 750.00

1306. 1798 B-2A, 15 Stars, Small Eagle, Small letters, UNLISTED variety with die break extending between last star and bust, a choice virtually uncirculated specimen. **AN OUTSTANDING RARITY!** Easily worth ----- \$1500.00

1307. **1798 B-4, SIXTH TYPE DOLLAR, 13 Obverse Stars, LARGE HERALDIC EAGLE, Knob 9, only 10 perfect arrows, 1 faint arrow, and 2 "sticks."** Bolender says, "EXTREMELY RARE." This specimen appears to be much choicer than that pictured in Bolender's book and may actually be **THE CHOICEST SPECIMEN KNOWN!** It is virtually Uncirculated, having only slight friction. Acquired 4 or 5 years ago at \$425; should now easily exceed ----- 1000.00

1308. 1798 B-5, Knob 9, heavy vertical die break along right side of shield entirely across reverse. **ONE OF THE RAREST OF ALL SILVER DOLLARS!** Bolender states, "Haseltine had found but a single specimen (fair), and I have seen but one. **EXCESSIVELY RARE.**" In checking the plate of Bolender's book, this appears to be Bolender's specimen! A choice virtually uncirculated specimen showing only barest friction, high point of collar and several opposite stars on reverse lightly struck due to shattered die. Acquired 4 or 5 years ago at \$975 from "America's Outstanding Collection of Silver Dollars." With the rise in values since then, we believe its present value should be between \$2500 and ----- \$3,000.00

1309. 1798 B-6, Knob 9, only 10 arrows and 2 sticks, comma", after date, extremely fine. **RARE.** Seldom offered. ----- 250.00
1310. 1798 B-7, Similar obverse die to above, fine obverse, reverse very good and sharp. **EXTREMELY RARE.** Bolender says, "I have found but two specimens." We note the specimen from "America's Outstanding Collection of Silver Dollars" was fine at \$445 about 5 years ago. Perhaps this is that specimen since it is quite close to that condition. Surely this great rarity now worth ----- 750.00

1798 SILVER DOLLARS (Continued)

1311.	1798 B-8A, Close date, ONLY 4 BERRIES IN BRANCH, numerous die breaks, particularly on reverse. A choice extremely fine specimen with much luster. Bolender says, "Very Rare."	350.00
1312.	1798 B-9, Close date, 5 berries, ONLY 12 ARROWS, Uncirculated with lovely bluish color. Bolender says "RARE." Should be worth around	600.00

1314.	1798 B-12A, Date 17 9 8, Unlisted die breaks below LI to head and between 79 of date, about fine. Bolender states the normal B-12 is "RARE," surely this UNLISTED B-12A is VERY RARE.	150.00

1317.	1798 B-14A, Medium wide date, extremely fine, tiny edge nick. Bolender states, "VERY RARE."	500.00
1318.	1798 B-14B, Latest die state, Advanced die break nearly obliterating 7th star, very fine. VERY RARE according to Bolender. From what information we could find, this is among the top condition specimens of the few known.	250.00

1324.	1798 B-23, Similar obverse combined with reverse of B-19, extremely fine. SCARCE.	250.00
1325.	1798 B-23A, Similar but RARE Variety with second curl from bottom defective, virtually Uncirculated, only barest friction. RARE.	375.00
1326.	1798 B-23Aa, Defective second curl but ALSO BIFURCATED "LIBER" and reverse letters, UNCIRCULATED SHARPLY STRUCK GEM WITH LIGHT BLUISH GOLDEN TINT. EXTREMELY RARE, BOTH AS A VARIETY AND AS TO CONDITION.	\$1500.00
1327.	1798 B-24A?, Early Die state with die break thru 12th star extending only slightly into field (does not extend to neck as per Bolender's description), NO die break thru lower right 4 stars, NO break border to B. The reverse die easily recognizable by the die failure resulting in light striking of upper right stars, die break extending from end of stem resulting in this sometimes being called "AMERICAN" variety. Golden Uncirculated, light rub on collar. RARE DIE STATE. With "common" varieties cataloging \$300, surely this rarity should be at least	600.00
1328.	1798 B-24A, Usual die state described by Bolender, some light reverse stars (as usual) not even showing due to die failure, bluish golden Uncirculated with usual light striking of right reverse stars and corresponding part of obverse (collar of bust). Catalogs	300.00

- 1329. 1798 B-25, Close Date, whisker from chin and die dot in field, die break from end of stem but ALSO die flaws in field between two upper stars on right reverse as described by Bolender for B-25A. Very fine obverse, extremely fine reverse. RARE. ----- 225.00
- 1330. 1798 B-26, Close Date, High 8, **EARLY UNLISTED DIE STATE** with die break under 9 extending to just beyond left of date, extremely fine with luster, ONLY 12 ARROWS and a "stick." ----- 300.00
- 1331. **1798 B-27, Close Date, High 8, 13 Arrows, 5 berries with 3rd berry attached to end of leaf, tiny "-" die break at 12th obverse star, golden Uncirculated, SHARP STRIKE. RARE THUS.** ----- 600.00

Die failure resulting in weakly struck collar of bust and 2 top right reverse stars. BOLENDER SAYS, "EXCESSIVELY RARE." We are inclined to agree with him since our records indicate we have not seen or handled a specimen in all our thirty years as professionals! Surely, such a rarity should bring over ----- \$1000.00**

1799 SILVER DOLLARS

A total of 423,515 issued divided into 9 varieties listed in the guidebook out of a total of 22 distinct varieties plus 14 sub-varieties listed by Bolender. While the "commonest" year of the lettered edge dollars, 1794-1803 yet it is quite small compared to the later Liberty Head and Peace dollars, some of which over 50,000,000 were issued in one year (1922). It is our opinion that these lettered edge dollars are somewhat undervalued in keeping with their true supply and demand situation. No doubt they will rise to their true level of value before too long.

1800 SILVER DOLLARS

A total of only 220,920 issued divided into 17 major varieties with over 12 sub-varieties. Obviously, these are undervalued in keeping with the present small supply available.

1379.	1800 B-2, R in LIBERTY and First T in STATES Double-Cut, UNCIRCULATED WITH PROOFLIKE SURFACE, a number of pin-point nicks are on the obverse and a larger one on the reverse. Bolender states, "Haseltine had seen but a single specimen (this is probably the one), and I have seen but this one specimen." This may or may not be the Bolender specimen, we do know however, it is EXCEEDINGLY RARE! The owner paid \$1000 for this great rarity several years ago; surely it should now exceed \$2000 or	\$2500.00
-------	--	------------------

1801 SILVER DOLLARS

Only 54,454 issued divided into 5 main varieties and some variants. We have always been puzzled why the guidebook lists only 2 of the main varieties when they list other dates with similar differences as separate varieties (13 arrows, 12 arrows, wide date, close date). As a date, somewhat scarcer than the catalog valuations would seem to indicate.

1399.	1801 B-1, Wide Date 1 8 01, 13 Arrows, extremely fine. Bolender says RARE.	200.00
1400.	1801 B-1A? Several reverse die breaks, ST thru 4th, 5th, 6th, 7th, 8th clouds; another from 7th cloud touching "O" thru "F"; one thru wing thru "A"; circular one from "A" thru ribbon end to "I" with BUCKLING OF DIE IN CIRCULAR PORTION, Uncirculated, slight rubbing of hair. VERY RARE.	500.00

1403.	1801 B-3, Right foot of Reverse "T's" missing, acquired as a "rubbed Proof" from a California sale April, 1961. It does have a prooflike surface and only the barest friction.	275.00
1404.	1801 B-4, Close Date, suction marks around date, nearly Uncirculated. Bolender says VERY RARE.	300.00
1405.	1801 B-4A?, no suction marks around date, very fine. Bolender says VERY RARE.	175.00

1802 SILVER DOLLARS

Only 41,650 issued divided into 9 varieties and some variants. The guidebook lists 5 which would make the demand rather strong for the small supply available.

1406.	1802 OVER 1, B-1, Close Overdate, "2" quite close to "O", ONLY 12 ARROWS, virtually Uncirculated, only barest friction. Bolender says RARE.	250.00

1408.	1802 OVER 1, B-2A, Bifurcated reverse letters, very fine, several tiny nicks. SCARCE.	125.00
1409.	1802 OVER 1, B-3, Wide DIVIDED Overdate 18 02, bifurcated letters, particularly reverse, nearly Uncirculated with luster. SCARCE.	200.00

1412.	1802 B-5, Wide Perfect Date, extremely fine. Bolender says EXTREMELY RARE. Seldom offered. One of the most undervalued of the early dollars 1794-1803.	300.00
1413.	1802 B-6, Close Perfect Date, right foot of T missing in LIBERTY, no reverse bifurcation, nearly Uncirculated.	175.00
1414.	1802 B-6A, Obverse and Reverse bifurcation of letters, extremely fine with luster.	175.00

1803 SILVER DOLLARS

A total of 66,064 issued divided into 7 varieties and some variants.

1415.	1803 B-1, Small THIN TOP 3, die break bisecting obverse from R thru center thru left of "8" in date, virtually Uncirculated, only barest friction, Prooflike surface. Bolender says VERY RARE but another authority says "EXTREMELY RARE." Acquired in the Penn-Ohio convention sale Oct., 1961 at \$255; surely this rarity now worth	400.00
1416.	1803 B-2, Small LOW 3, nearly Uncirculated with luster. Die break after D in UNITED and left wing tip to edge. Bolender says EXTREMELY RARE.	500.00

1418.	1803 B-4A?, Bottom of 3 Re-Engraved, extremely fine. RARE.	200.00
1419.	1803 B-5A, Thin small HIGH 3, virtually Uncirculated, only barest friction, better than Bolender's plate coin. Bolender says VERY RARE. Acquired two years ago at \$450; should now exceed	500.00
1420.	1803 B-6, Large Re-Engraved 3, very fine and sharp.	100.00
1421.	1803 B-6A, Fine die break connecting some of right stars, very fine and sharp, tiny nick. Bolender says RARE.	125.00
1422.	1804 "Spanish Milled Dollar" of Mexico (8 reales) which actually circulated in the United States. A genuine "1804 dollar", nearly Uncirculated, tiny nick.	15.00
1423.	1804 Bank Of England Dollar of Five Shillings, struck over another coin, virtually uncirculated. Quite popular. Have seen it priced at	25.00

1836 GOBRECHT DOLLARS

Generally acknowledged our most beautiful coin and quite popular. Setting new records.

1424.	1836 Liberty Seated, No Drapery From Elbow, Starless Obverse, 26 Stars reverse (for states) NAME "C. GOBRECHT F." in FIELD between base and date, plain edge. CHOICE BRILLIANT PROOF. Of the ONLY 18 ORIGINALLY ISSUED 127 YEARS AGO, HOW MANY CAN STILL BE IN EXISTENCE, PARTICULARLY IN THIS REMARKABLE CONDITION? Acquired from a leading California dealer in April, 1960 at \$2500; surely this rarity now worth over	\$5,000.00
-------	---	-------------------

1836 GOBRECHT DOLLARS (Continued)

1425.	Similar NAME BELOW BASE but STRUCK IN COPPER, plain edge, Red and Blue PROOF. ONLY 2 OR 3 ISSUED. Literally, "A Chance Of A Lifetime" to acquire an outstanding rarity! In trying to arrive at its value, we finally found a specimen of the usual "name on base" variety struck in copper offered on page 3242 of the December Numismatic Scrapbook at \$3995. Surely, this more desirable specimen, nearly two years later, would be a "bargain" at	\$5,000.00
1426.	1836 NAME ON BASE, Eighth Type Dollar , bluish golden PROOF. ONLY 1000 ISSUED. Acquired a year ago at \$1500 when the catalog listed it much too low at \$900; now that the catalog has advanced it to \$1250, the present market seems to be closer to	1750.00
1427.	1836 Duplicate with Reverse Slightly Rotated, some friction on highest points. RARE. In strong demand for type. Should bring fairly close to the	1250.00
1428.	1836 INVERTED REVERSE. ONLY 600 ISSUED. BRILLIANT PROOF. A REMARKABLY CHOICE SPECIMEN OF THIS RARITY. Surely such a specimen worth over	2500.00
1429.	Undated (1836) Original Die Strike for the obverse of the 1836 Silver Dollar. Struck upon an extremely thin planchet, in a fusible alloy composition resembling White Metal. An impression from one of the later brass trial dies, made before the adopted steel die was completed. Liberty appears thickset, stocky, and is apparently without a neck. Major parts of the final product seem to be lacking, including most of the detail on the rock at Liberty's left. ENGRAVER'S LINES APPEAR IN THE BACKGROUND! The piece has cracked into two parts. A most interesting and historical item for the dollar collector, and Gobrecht specialist, in particular. Acquired several years ago at \$550; should now realize closer to	1000.00

1839 GOBRECHT DOLLAR

1430.	1839 NINTH TYPE, 13 Stars Obverse, Plain Reverse, bluish PROOF which appears to have had some friction in the past but since has acquired a lovely blue patina. ONLY 300 ISSUED. Catalogs a mere \$1750; records closer to	\$2,500.00

LIBERTY HEAD DOLLARS 1878-1921

With the release of several million into circulation during the past year, we are reliably informed that the present rate of release will exhaust the supply being held within one year. The President has signed into law the authorization of \$1 and \$2 Federal Reserve Notes making unnecessary the keeping of silver dollars and silver bullion as collateral for the silver certificates. This series is now one of the most popular of all series and, no doubt, some "sleepers" will develop during the near future.

TRADE DOLLARS

Issued for use in the Orient, it was heavier than the regular dollar. Thru an oversight in the law, they became legal tender in the U.S. together with the regular lighter silver dollar. In 1887 a law was passed authorizing the Treasury to redeem all unmutilated trade dollars and melt them. Thus the amount issued is not a true reflection of the number still in existence. A number are somewhat undervalued in keeping with their true scarcity.

GOLD DOLLARS

A popular series (issued from 1849-1889) since it can be completed by persistence. We note a complete set was for sale in the East earlier this year priced at \$35,000.00. It was a mixed condition set ranging from fine to uncirculated with some proofs. This virtually complete set is indeed an unusual opportunity to acquire those "needed coins" before they advance still further in value. Even tho the new Guidebook has advanced nearly all the dates substantially in value, many still bring somewhat more than "catalog."

1674.	1849 OPEN WREATH, Small Head, no "L" on truncation (similar situation as in 1864 bronze without "L" cent) BRILLIANT UNCIRCULATED GEM. ONLY 1000 ISSUED! The smallest issue gold dollar next to 1875! Record of \$150 in 1958. Should now exceed	300.00
1675.	1849 OPEN WREATH, Small Head, "L" (Longacre) on truncation of bust (same reason as 1864-L 1c) BRILLIANT PROOFLIKE GEM (acquired as a full PROOF). Have seen similar specimens sold as full proofs several years ago at	500.00
1676.	1849 OPEN WREATH, regular Large Head, "L" on truncation of bust, nearly Uncirculated. ONLY YEAR TYPE WITH OPEN WREATH. Cat. too low unc.	75.00
1677.	1849-D Open Wreath, extremely fine. First year DAHLONEGA MINT. In strong demand.	300.00
1678.	1849-O Open Wreath, extremely fine. Catalogs unc.	60.00
1679.	1849 CLOSED WREATH, appears to be a PROOF for which it was acquired, altho it has been cleaned. Regardless of what you call it, it is a lovely specimen. Acquired four years ago at	250.00
1680.	1849-C Closed Wreath, SHARPLY STRUCK, Uncirculated with slight rubbing in field. RARE. Catalogs a ridiculous \$490 even tho it is TWICE AS RARE AS 1849-D! Sure, this rarity should be worth closer to	600.00
1681.	1850 Very fine. Scarce. Catalogs too low at	35.00

1682.	1850-C SHARPLY STRUCK UNCIRCULATED WITH PROOFLIKE SURFACE! VERY RARE. We handled a fairly similar specimen over a year ago valued at	\$1500.00
-------	--	-----------

1683.	1850-D Very fine obverse, nearly Uncirculated reverse; tiny discoloration spot and edge nick. Only 8382 issued compared to 21,588 issued of 1849-D. Surely it should catalog for more than the 1849-D which is listed in v. f. at	200.00
1684.	1850-O Extremely fine with luster. Catalogs unc.	75.00
1685.	1851 Nearly uncirculated. Catalogs	40.00
1686.	1851-C Nearly uncirculated, tiny nick. SCARCE.	175.00
1687.	1851-D Nearly Uncirculated. RARE. In fact, over twice as rare as the 1849-D. Acquired over a year ago from a dealer who valued it at \$750; we believe this valuation a bit premature, perhaps its present value should be closer to	375.00
1688.	1851-O Very fine. Catalogs	40.00
1689.	1852 Nearly uncirculated. Catalogs unc.	47.50

1690.	1852-C About very fine. SCARCE. SMALL ISSUE.	200.00
1691.	1852-D Orange Uncirculated. RARE. ONLY 6360 ISSUED. Between 3 and 4 times as rare as the 1849-D! Seldom offered. Perhaps this was why the owner was willing to acquire it in December of 1961 at	675.00
1692.	1852-O Extremely fine. Catalogs unc.	60.00
1693.	1852 RING GOLD DOLLAR, Open Center, appears to be gold but since the only two gold specimens known are struck over \$2½ gold pieces, this must be copper-nickel or copper with gold plating. ONLY 4 TO 12 ISSUED!	\$ 500.00
✓1694.	1853 Uncirculated, sharply struck. Catalogs	47.50
1695.	1853-C Uncirculated, tiny nick. RARE. Seldom offered so choice.	400.00
1696.	1853-D Uncirculated, tiny nick. RARE. About same rarity as 1852-D with ONLY 6583 ISSUED.	600.00
1697.	1853-O Nearly uncirculated. Catalogs unc.	50.00
1698.	1854 Brilliant Uncirculated. A premium coin worth over catalog of	55.00
1699.	1854-D Orange Uncirculated, slight rub. ONLY 2935 ISSUED. Setting new records just about every time offered. We note the Bell specimen in the Central States convention April sale was only fine with mounting at top was valued \$350; the cataloger further states "There are seven excessively scarce dates in the \$1 gold series, and this is considered one of them." Surely, this choice specimen worth over	\$1000.00
1700.	1854-S Very fine with traces of solder on reverse. THE ONLY "S" MINT TYPE I GOLD DOLLAR! Catalogs too low at	100.00
1701.	1854 TYPE II, LARGE SIZE, SMALL HEAD, Uncirculated, slight rub on hair. IN STRONG DEMAND. Catalogs too low at \$200; should be closer for unc. to	250.00
1702.	1855 Nearly Uncirculated. Scarcer than above.	200.00
1703.	1855-C Usual strike from worn obverse die, normal reverse die resulting in the obverse appearing to be very fine and the reverse virtually uncirculated. THE ONLY "C" MINT TYPE II GOLD DOLLAR!	375.00
1704.	1855-D Very fine with characteristic light striking of "8" as seems to occur in virtually all the genuine specimens we have seen during our thirty years as professionals. THE ONLY "D" MINT TYPE II GOLD DOLLAR! ONLY 1811 ISSUED! Of the few that have survived, several seem to have been used as jewelry. MISSING IN MANY OF THE LARGER COLLECTIONS. Even the Bell collection (which contained many of the great rarities in the gold series) recently sold (April) did not contain a specimen. With a record of \$2500 about two years ago, surely this rarity should now bring	\$3000.00
1705.	1855-O Virtually Uncirculated with characteristic light struck "8". ONLY "O" MINT TYPE II GOLD DOLLAR!	225.00
1706.	1856-S DOUBLE "S" with Original "S" Too High and to right of final "S", usual striking from worn obverse die giving the appearance of a very fine obverse, however the reverse is nearly Uncirculated. RARE.	300.00
1707.	1856 TYPE III, LARGER HEAD, slant 5, extremely fine.	50.00
1708.	1856 Upright 5, virtually Uncirculated, tiny nick. SCARCE. Seldom offered.	60.00
1709.	1857 Uncirculated but nick at edge. Catalogs	55.00
1710.	1857-C Nearly Uncirculated, sharper strike than most (usually comes poorly struck). Rare so choice.	300.00
1711.	1857-S Nearly Uncirculated. Tied with the 1858-S as SECOND SCARCEST "S" MINT GOLD DOLLAR! The Bell specimen in the April Central States sale "A.U." was valued	195.00
1712.	1858 Nearly Uncirculated.	55.00

GOLD DOLLARS (Continued)

1713.	1858-D Virtually Uncirculated, a sharply struck choice specimen of this rarity. Far superior to most specimens of this date that we have seen! The extremely fine Bell specimen was \$600 in April; surely this choice specimen worth over	\$1000.00
1714.	1858-S Nearly Uncirculated. SCARCE. The Bell A.U. specimen was	225.00
1715.	1859 Nearly uncirculated.	55.00
1716.	1859-C Struck from the usual worn dies giving it the appearance of being very fine to extremely fine. RARE. Seldom offered. Comparable to the Wolfson specimen sold last October at \$320; should now exceed	350.00
1717.	1859-D Virtually Uncirculated, only barest friction. RARE. Over a year ago a similar specimen was offered by a West Coast dealer at	575.00
1718.	1859-S Very fine. SCARCE.	125.00
1719.	1860 Brilliant Uncirculated, CHOICE. The Bell specimen was valued	125.00
1720.	1860-D Virtually Uncirculated, only barest friction. VERY RARE. THE SECOND RAREST GOLD DOLLAR! Not even in the huge Bell collection sold last April! The only recent specimen we could find was the one offered to us at the Central States April convention at	\$4500.00
1721.	1860-S Uncirculated, tiny nick. SCARCE. The Bell "A.U." specimen was \$225; surely this superior specimen worth	250.00
1722.	1861 Brilliant Uncirculated.	75.00
1723.	1861-D Nearly Uncirculated. THE RAREST GOLD DOLLAR! Seldom offered. Not in the huge Bell gold collection sold in April. The catalog value of \$5750 was based upon the sale price of the Wolfson specimen sold at a New York auction last October. The catalogers of that sale stated "PROBABLY NOT MORE THAN TWELVE OR FIFTEEN SPECIMENS ARE IN COLLECTORS' HANDS TODAY." That specimen was "Extremely Fine." THIS SPECIMEN IS NOT ONLY SUPERIOR BUT ITS VALUE TODAY, NEARLY A YEAR LATER, IS SOMEWHAT HIGHER! Surely, this GREAT RARITY should now realize closer to	\$10,000.00
1724.	1862 Brilliant Uncirculated.	70.00
1725.	1864 Virtually Uncirculated, only barest friction. RARE. Seldom offered. The uncirculated Bell specimen was	600.00
1726.	1865 Nearly Uncirculated, cleaned to resemble a proof. The Bell "gem unc." specimen was	825.00
1727.	1866 Virtually Uncirculated, only barest friction. RARE. The "Extremely fine, loop removed" Bell specimen last April was \$175; surely this much superior specimen worth over	250.00
1728.	1867 Virtually Uncirculated, tiny nick. RARE. Not in the Bell collection! About 50% rarer than 1866! Should bring	350.00
1729.	1868 Appears to be a PROOF which has been cleaned. RARE. We note proof catalogs	400.00
1730.	1869 Appears to be a PROOF which has been cleaned, tiny nick. RARE. We note proofs catalog	400.00
1731.	1870 Nearly Uncirculated. RARE.	175.00
1732.	1870-S Brilliant Uncirculated with PROOF surface. A magnificent specimen of the RAREST "S" MINT GOLD DOLLAR! Acquired in 1961 at \$1000; surely it is now worth over	\$1,500.00
1733.	1871 Orange PROOFLIKE specimen. RARE. Acquired as a full PROOF at	350.00
1734.	1872 Extremely fine, slightly bent. RARE. The Bell "Nearly Uncirculated" specimen in April was	295.00
1735.	1873 Brilliant uncirculated, open 3. Catalogs	75.00
1736.	1874 Brilliant Uncirculated with PROOFLIKE reverse.	100.00

1737.	1876 Nearly Uncirculated. RARE.	150.00
1738.	1877 Brilliant PROOFLIKE surface, nick in field. RARE.	200.00
1739.	1878 Brilliant PROOFLIKE GEM. The comparable Beil specimen in April was	275.00
1740.	1879 Brilliant PROOFLIKE GEM. The comparable Bell specimen in April was \$225; since it is just as rare as the 1878, we cannot see why it too should not be	275.00
1741.	1880 BRILLIANT PROOFLIKE GEM. We had to scrutinize this one quite closely before deciding it was not a proof. About 95% of the "proofs" sold of this date that we have examined have been similar to this coin. With only a total of 1636 issued, this date is among the top 5 smallest issues of the entire series! Have seen comparable specimens at	300.00
1742.	1881 DOUBLED "DOLLAR" variety, Brilliant Uncirculated GEM with some prooflike surface.	200.00
1743.	1882 BRILLIANT PROOF. ONLY 40 ISSUED. Catalogs \$240 which seems low for a "40 issued" coin. Should be closer to	300.00
1744.	1883 BRILLIANT PROOFLIKE GEM.	150.00
1745.	1884 BRILLIANT PROOF. RARE.	200.00

1836 GOLD DOLLAR

The FIRST U. S. GOLD DOLLAR issued. Only a few struck at the mint in 1836 to influence the Congressional committee on coinage to issue gold dollars. When the bill finally passed on Jan. 18, 1837, the gold dollar was not included. Instead, the silver dollar coinage was resumed in 1840. THIS IS ONLY THE THIRD SPECIMEN TO PASS THRU OUR HANDS IN OUR THIRTY YEARS AS PROFESSIONAL NUMISMATISTS!

1751.	1836 Radiated liberty cap with LIBERTY on band, reverse "1 D." encircled by palm branch, UNITED STATES OF AMERICA 1836. YELLOW PROOF.	\$1500.00

(CHRISTOPHER) BECHTLER CAROLINA GOLD DOLLARS 1832

The Bechtlers operated a "private mint" at Rutherfordton, N.C. in the heart of the nation's gold supply from 1790-1840. The \$2½ and \$5 pieces were issued starting 1830 and the \$1 in 1832. The variation in weights and sizes were due to the foreign metals in the gold coins in order to conform exactly with the gold standard. THE FIRST GOLD DOLLARS PRODUCED IN THE U. S. They circulated rather extensively in the Southeastern U. S. Nearly all have since been melted for their gold metal value with the increase in gold prices. Only a few are still in the hands of collectors.

1752.	ONE DOLLAR CAROLINA, rev. RUTHERF. BECHTLER 28G, "N" reversed, (traces of original cross-bar visible) virtually Uncirculated with luster. In strong demand. The Emerson Gaylord specimen sold at auction in Boston, May 18, 1963 realized	225.00
1753.	Similar but variety with REVERSE ROTATED 90% in relation to obverse, UNCIRCULATED. RARE.	300.00

1754.	28G with NORMAL "N", WITHOUT STAR, nearly Uncirculated with luster. THE RAREST, BY FAR, OF ALL THE BECHTLER DOLLARS! The Emerson Gaylord specimen sold May 18 realized	\$ 975.00
-------	--	-----------

1755.	N. CAROLINA, 30 G., virtually Uncirculated, much luster. The Gaylord specimen realized	325.00
-------	--	--------

A. (AUGUST) BECHTLER CAROLINA GOLD DOLLAR 1842-1852

The son of C. Bechtler. Only the single design gold dollar issued.

1756. **A. BECHTLER 1 DOL., CAROLINA GOLD 21C., 27G.,** Uncirculated with some **PROOF** surface, **HIGH WIRE EDGE.** The Gaylord "About Uncirculated with light mark at 7" specimen realized \$225 in May, surely this much superior specimen worth 300.00
1757. Similar but **REVERSE ROTATED 90%** in relation to obverse, nearly Uncirculated with luster. Superior to the Gaylord specimen which realized 225.00

GOLD THREE DOLLARS COMPLETE (Includes 1875, 1876)

The smallest issue of any regular gold coins \$1, \$2½, \$5, \$10, \$20. The "commonest date" had an issue of only 138,618; the majority had an issue of only 2000 to 5000 and many had an issue of only approximately 1000 or even less! This series seems destined for a continued rapid increase in value, even tho a number have nearly doubled in value the past year. The continued strong demand for "type" gold sets and complete sets, quickly absorb what small supply comes upon the market.

1758. 1854 TYPE I, TINY "DOLLARS", nearly unc. Comparable to the Bell specimen in the Central States convention sale in April at 250.00

1759. 1854-D Nearly Uncirculated. **THE ONLY DAHLONEGA MINT \$3 GOLD!** With a coinage of only 1120 nearly a century ago, very few are in existence today. We have seen an estimate of "only three or four dozen known" specimens existing. The Wolfson specimen in comparable condition nearly a year ago (October) realized \$2100 in a New York sale; surely this rarity now worth over \$2500, perhaps closer to\$3,000.00

1760. 1854-O Very fine with some luster. ONLY "O" MINT \$3. 200.00
1761. **1855 TYPE II (as all are thru 1889) LARGE "DOLLARS", Brilliant Uncirculated with WIRE EDGE, some Prooflike surface. A premium specimen worth** **350.00**
1762. 1855-S Very fine with trace of luster. SMALL ISSUE. 250.00
1763. 1856 Extremely fine with luster, nick on cheek. Catalogs 215.00
1764. **1856-S Small (tiny) "s", extremely fine. VERY RARE. Seldom offered. Nearly all the "small "s"specimens we have examined have turned out to be the medium size "S". A little appreciated rarity which must eventually "come into it's own." Acquired from a leading dealer a year ago at** **500.00**
1765. 1856-S Medium size "S", very fine, traces of luster. Cat. 190.00
1766. 1856-S Large "S", nearly Uncirculated. Catalogs 225.00
1767. 1857 Virtually Uncirculated, only barest rubbing. 250.00
1768. 1857-S Nearly Uncirculated. Catalogs unc. 300.00
1769. **1858 Nearly Uncirculated with some luster still adhering. The comparable specimen in the March, 1962 New York sale realized \$530. The Bell specimen was only "Extremely Fine with Planchet defeat obverse" at \$475. The Emerson Gaylord collection did not contain a specimen. SMALL ISSUE! Should realize over the catalog value (unc.) of** **600.00**
1770. 1859 SMALLER DATE, nearly Uncirculated with much luster. The Bell specimen was "Brilliant Uncirculated gem" at \$500; this one worth about 275.00
1771. 1860 Brilliant Uncirculated. The Bell "Nearly Uncirculated" specimen in April was \$325; surely this LOW COINAGE choice specimen worth over 350.00
1772. 1860-S Small "s", very good. SCARCE. 150.00
1773. 1861 Nearly Uncirculated. SCARCE SMALL ISSUE. The Bell "Brilliant Uncirculated" specimen in April was \$400; surely this one worth 275.00
1774. 1862 Fine. Scarce. 200.00

1775.	1863 Nearly Uncirculated. SMALL ISSUE. RARE. The Bell "Brilliant Uncirculated" specimen was \$475; surely this one worth	350.00
1776.	1864 Uncirculated with orange tint. RARE SMALL ISSUE. Catalogs \$500 but have seen valuations of	650.00
1777.	1865 Uncirculated with orange tint. ONLY 1165 ISSUED. ONE OF THE RAREST DATES IN THE ENTIRE SERIES. TWICE AS RARE AS THE 1864!	1000.00
1778.	1866 Appears to be a PROOF which has been improperly cleaned. RARE SMALL ISSUE. The Bell uncirculated was \$550 in April and the present catalog value for Proof is	1100.00
1779.	1867 Nearly Uncirculated. RARE SMALL ISSUE.	275.00
1780.	1868 Nearly Uncirculated, much luster. SMALL ISSUE.	275.00
✓1781.	1869 Virtually Uncirculated, Prooflike surface. ONLY 2525 ISSUED. The Bell specimen in comparable condition was	350.00
1782.	1870 Nearly Uncirculated with much luster. RARE SMALL ISSUE.	275.00
1783.	1871 Prooflike surface but slight rubbing. ONLY 1300 ISSUED! THE THIRD RAREST DATE ISSUED FOR CIRCULATION! (The 1875, 76, 73 were issued for collectors and not for circulation). A bit superior to the Bell specimen at \$450; this one should now bring closer to	500.00
1784.	1872 PROOFLIKE WITH ORANGE TINT. ONLY 2030 ISSUED. One of the rarer dates of the set. The Bell specimen was "Extremely Fine" described as "difficult to locate so choice" and was \$395; surely this greatly superior specimen worth somewhere between the \$395 and the catalog value for proof of	1,200.00
1785.	1873 Closed 3, very fine. THE THIRD SMALLEST ISSUE \$3! The Bell specimen was "Extremely Fine plus" at \$2100; surely this one now worth at least	1750.00
1786.	1874 Orange Uncirculated with some Prooflike surface, slight rubbing.	225.00

1787. 1875 Orange with barest trace of rubbing. **THE RAREST \$3 GOLD!** After careful analysis we have concluded that this great rarity is gold-plated aluminum rather than the all-gold which it appears to be. EVEN RARER than the all-gold as ONLY 4 OR 5 are said to have been issued in aluminum. We note the Bell collection sold in April at Central States auction also contained a copper with gold plating described as follows: "1875 THE RAREST \$3.00 GOLD PIECE AVAILABLE TO COLLECTORS. It is not necessary to comment very much upon the rarity of this date. Records indicate that there were 20 pieces struck. It is not known today whether the 20 are still in existence. **The last 1875 Brilliant Proof sold at auction (last October) brought \$17,000.00. We understand that the owner of that coin valued it at least \$25,000.00.** The coin in this Bell collection is the U.S. die trial piece in gilt (gold plating). Records say there are only four or five such pieces in existence. It was struck from the same die, **and in every respect looks identical to the 1875 Proof 3 that is worth \$25,000.00.** When it was housed in a plastic container in which the complete set was mounted, almost every collector viewing the set did not recognize the 1875 gilt proof from the 1875 gold proof. On a basis of rarity, however, the gilt proof is four times rarer than its counterpart. We estimate this beauty at \$7500.00. We believe, however, that in ten years or less this item will be in the \$25,000.00 class."

GOLD THREE DOLLARS COMPLETE (Includes 1875, 1876) (Continued)

1788. 1876 Very fine obverse (nick on cheek) Prooflike reverse. **THE RAREST DATE \$3 NEXT TO THE 1875!** The Bell collection sold in April contained a specimen described as follows: "1876 Brilliant Gem Proof. There were only 45 coins struck altogether. It is believed doubtful whether there are over 15 or 20 in existence yet today. The last few years have proven that the interest in \$3.00 gold pieces is on the upgrade as never before. Collectors are realizing that this interesting series has much merit. It is possible that in a generation from now, RARE DATE \$3.00 gold pieces will only be on display in museums. The average person perhaps will not have the opportunity of buying one regardless of price. It is possible that another five years may go by before another 1876 Brilliant Proof \$3.00 gold piece is even offered on the market. We could recommend this date very strongly, and feel that the coin could realize close to \$10,500.00." Even tho the coin then cataloged only \$4,350.00, it sold at \$8,100.00. **Now that the coin catalogs \$7,000.00 (based upon a record nearly a year old) we belief a proof would actually bring the estimated value of \$10,500; this coin should be worth a proportionate price.**

1789. 1877 PERFECT BRILLIANT PROOF. A MAGNIFICENT SPECIMEN OF THIS GREAT RARITY! OF THE ONLY 20 PROOFS ORIGINALLY ISSUED, WE DOUBT IF 10 ARE STILL IN EXISTENCE. PERHAPS AN EQUAL EXISTS, BUT CERTAINLY NO CHOICER ONES! WE HAVE SEEN SEVERAL 1875 PROOFS OFFERED DURING OUR 30 YEARS AS PROFESSIONAL NUMISMATISTS BUT CAN RECALL ONLY ONE OTHER 1877 PROOF WHICH MIGHT APPROACH THIS SPECIMEN IN QUALITY! IF RARITY AND DEMAND HAVE ANYTHING TO DO WITH VALUE, THEN THIS GREAT RARITY SHOULD EASILY BE WORTH ____\$5,000.00

1790. 1878 Brilliant Uncirculated GEM. Excellent for "Type." Difficult to obtain so choice! _____ 350.00
 1791. 1879 BRILLIANT PROOF. ONLY 30 ISSUED. RARE. CATALOGS A RIDICULOUS \$950; SHOULD BE _____ 1500.00
 1792. 1880 BRILLIANT PROOF. ONLY 36 ISSUED. RARE. CATALOGS A RIDICULOUS \$1000; SHOULD BE _____ 1500.00

1793. 1881 BRILLIANT PROOF, possibly cleaned. VERY RARE. ONE OF THE RAREST DATES OF THE ENTIRE SERIES! Catalogs a ridiculous \$1600; what few specimens have been recently offered were priced \$2100 to ____\$2500.00

1794. 1882 Variety with 2 OVER 2, ORIGINAL "2" ABOUT 50% TOO HIGH, Then Corrected. A BRILLIANT PROOFLIKE GEM. So choice, it was acquired a year ago as a full Proof at \$1000; the proof now catalogs \$1000. This RARE 2 OVER 2 variety, while in our opinion is not as yet worth the \$1000, it should bring somewhere around _____ 750.00
 1795. 1883 BRILLIANT PROOF WITH ORANGE TINT. RARE. NOT IN THE WOLFSON SALE LAST YEAR. The specimen in the Kreisberg Jan. 1963 sale realized \$1500; surely this rarity now worth closer to _____ 1750.00
 1796. 1884 Brilliant Prooflike surface Gem. RARE. In strong demand. _____ 750.00
 1797. 1885 BRILLIANT PROOF WITH ORANGE TINT. RARE. Seldom offered. Catalogs a ridiculous \$1200; if this were in our stock, we would price it ____ 1750.00
 1798. 1886 BRILLIANT PROOF WITH ORANGE TINT. RARE. _____ 1500.00
 1799. 1887 Brilliant Uncirculated with nearly FULL PROOF surface. RARE. _____ 500.00
 1800. 1888 BRILLIANT PROOF WITH ORANGE TINT. RARE. _____ 1200.00
 1801. 1889 PROOF WITH ORANGE TINT, nearly the equal of the above. RARE. 1000.00

ALASKA "COINS," GOLD & TOKENS

With the admission of Alaska as our 49th state, there has been a remarkable increase in demand for Alaskan "money". Early in 1960, Whitman published "ALASKA'S COINAGE THROUGH THE YEARS" by Gould and Bressett. "GB" refers to numbers assigned to these "coins" in the booklet.

1802.	1935 A.R.R.C. set Complete 1c thru \$10 mounted in attractive plastic holder. Since their inclusion in the guidebook, there has been a sharp rise in value. ONLY 250 COMPLETE SETS were saved for collectors when the issue was called in for redemption and destroyed. This is a choice set with nearly all being uncirculated, only a few show slight friction. RARE. Accompanying the set is a page article from "COINS" magazine by Maurice Gould entitled, "NUMISMATICS WITH A FUTURE"—THE ALASKA "BINGLE. 1876 CENTENNIAL "COINS," COMMEMORATIVES, MEDALS, ETC.

The greatest exposition and fair held in the United States up to 1876. In fact, it was not equaled until the Columbian Exposition of 1892-93. The Centennial Exposition was held to commemorate the 100th anniversary of the Declaration of Independence in 1776. Several people have mentioned to us that they are trying to assemble a complete listing of the various items issued for this historical event. This collection represents the efforts of one such collector over a good many years of keen searching. We believe present day values will appear as "bargains" in the not too distant future.

BRIGHAM YOUNG, President of Mormon Church
N. K. Whitney, Presiding Bishop of Mormon Church
H. C. Kimball, of the Church First Presidency
VALIDATED BY:
A penned "secret mark" (letter "B") of Thomas Bullock, MORMON COINER, and a symbol over the Plate Letter.
The above plus the following information was contained in a page ad of the New Netherlands Coin Co. in the August 1961 Numismatist.
THIS EXCESSIVELY RARE MORMON PAPER CURRENCY WAS—(A) A true emergency issue, issued concurrently with the small printed 1849 notes, and intended to supplement them. Both were retired, as the Mormon gold coins appeared. (B). A fulfillment of Joseph Smith's prophecy that one day the Kirtland notes "would be as good as gold." (The Kirtland bank failed). Only 129 \$5 countersigned Kirtland notes were issued; THE MAJORITY WERE REDEEMED September 1849 thru May 1850 AND WERE DE-STROYED!
These notes are THE ONLY MORMOM ITEM WITH SIGNATURES OF BOTH JOSEPH SMITH and BRIGHAM YOUNG, the founder and the leader of the Church of Latter-Day Saints. The ad of the New Netherlands Coin Co. stated ONLY FOUR NOTES WERE AVAILABLE (1961). Their specimen was fine to very fine and priced \$350; this specimen is in similar condition (actually closer to very fine) and cost \$350 (possibly the same specimen advertised). It should now bring closer to 750.00
2019. \$1 1837 RE-ISSUED 1849 as above except "antiBANKing co.", fine. EX-TREMELY RARE, MORE SO THAN \$5! 1000.00
2020. \$2 1837 RE-ISSUED 1849 as above "antiBANKing co." with ADDITIONAL Weak Impression of the "Official Seal of the Twelve Apostles," fine. Sig-natures of Rigdon as Sec. and Whitney as Treas. EVEN MORE RARE! 1,250.00
2021. \$2 1837 RE-ISSUED 1849 as above, NO "anti---ing, co.", Signatures Smith as Cashr. and Rigdon as Prest., No Apostle validation stamp, fine. EX-EXTREMELY RARE. 1,150.00
2022. \$3 1837 RE-ISSUE 1849, NO "anti---ing co.", signatures Smith as Cashr. and Rigdon as Prest., faint Apostle validation stamp, very good. ONLY 3 OR POSSIBLY 4 KNOWN TO EXIST! Acquired in 1961 at \$1000; could now exceed \$2,000.00
2023. \$10 1837 RE-ISSUE 1849, NO "anti--ing co.", signatures Smith as Cashr. and Rigdon as Prest., faint Apostle validation stamp, very fine. Acquired in 1961 at \$750; could now exceed 1,500.00

2024. **PRINTED ISSUE** Jan. 20, 1849, crudely printed in script type: "G. S. L. CITY Jan. 20, 1849 No. --- (set four, 50c, \$1, \$2, \$3) 50c GOOD TO (pen signature N K WHITNEY presiding bishop of Mormon Church) OR BEARER. Fifty cents on demand. 50c. Signed by BRIGHAM YOUNG president of Mormon Church and H. C. KIMBALL of the Church First Presidency. Countersigned by THOMAS BULLOCK, Clerk (actually, Mormon coiner) unc. set four. Printed obverse only, validated by weak impression official seal of the Twelve Apostles containing letters "PSTAPCJCLDSL-DATW" (meaning "Private Seal of the Twelve Apostles, Priests of the Church of Jesus Christ of Latter-Day Saints, in the Last Dispensation All over The World"). Issued only from January 22, 1849 to April 23, 1849. Issued as receipts for gold dust (similar to gold certificates of the U.S. were receipts for gold bullion). Type hand set by Thomas Bullock (Mormon Coiner) and press operated by Brigham H. Young (nephew of Church President). We note a similar set (perhaps this is it) was advertised in the July 1961 Numismatist by the New Netherlands Coin Co. at \$2000.00. They (N.N.) further state in their ad, "THIS EXCESSIVELY RARE MOR-MON PAPER CURRENCY IS

1. The FIRST item printed in the Inner-Mountain West, and the ONLY imprint to come from the press in 1849, making it of exceptional interest and value to book collectors as well as numismatists.
2. The first representation of real governmental functions in the State of Deseret (including all of Utah, Nevada, and Arizona, together with portions of New Mexico, Colorado, Wyoming, and Southern California), being the earliest examples of type-setting and printing in this entire domain.
3. Part of the EARLIEST Western issue of obsolete paper currency.
4. Among the MOST Historically valuable issues of known Western paper.

The New Netherlands ad of July, 1961 stated that they only had "one set available of these Museum caliber items" at \$2,000.00. Since this set cost \$2,000.00, it could very well be that set. Surely, this EXCES-SIVELY RARE HISTORICAL set should now bring closer to \$4000.00
